

HASAN ABULABAN

Toronto, Ontario

Cellular: +16476068671, Email: hasanabulaban92@gmail.com

Results-driven technical professional with experience in project coordination, device lifecycle management, and technical operations across enterprise technology and service environments. Proven ability to lead configuration teams, manage high-volume deployment projects, and collaborate closely with cross-functional stakeholders. Recognized for strong organizational skills, process optimization, and delivering consistent, on-time results in fast-paced and deadline-driven settings.

WORK EXPERIENCE

Configuration Services Engineer | Project Coordinator

Lenovo (Ontario, Canada)

May 2024 – Jan 2026

- Coordinate end-to-end delivery of device lifecycle and DaaS configuration projects, managing timelines, resources, and workflow optimization across multiple concurrent initiatives.
- Collaborate with cross-functional teams (Operations, IT, Sales) and external stakeholders to ensure smooth project execution, deployment readiness, and successful delivery.
- Support testing, validation, and quality assurance processes prior to rollout to ensure solutions meet technical and operational requirements.
- Track project progress, risks, and KPIs; generate reports and provide regular status updates to support decision-making.
- Develop and maintain project documentation including SOPs, workflows, and reporting dashboards to ensure consistency and knowledge sharing.
- Drive operational readiness by aligning systems, processes, and teams before deployment in fast-paced environments.
- Execute system configuration tasks including BIOS scripting, Windows imaging, Autopilot/Whiteglove setup, and software installation.
- Manage asset tracking and inventory with 100% traceability using scan-based systems.
- Improve efficiency through automation, process optimization, and continuous improvement initiatives.
- Train and mentor team members, enforce quality standards, and manage high-volume workloads under tight deadlines.

Technical Lead

goTRG (Ontario, Canada)

May 2021 – March 2024

- Working with Lenovo Custom Fulfilment Services Center as an on-site Technical Lead.
- Managing Device-as-a-Service (DaaS) projects for Lenovo Canada's Custom Fulfilment Services Center.
- Custom BIOS Configuration, Desktop and Laptop Imaging, Windows Autopilot Deployment, Windows Whiteglove, Asset Tag Printing.
- Installing, maintaining, testing, and troubleshooting hardware & software for Laptops and Desktops.
- Testing Desktop and Laptops (Apple, Lenovo, Samsung, and Gaming Consoles) to grade quality and functionality.
- Determining project requirements, developing execution plans, and managing headcount to fulfill client requirements.
- Delegating tasks and achieving daily, weekly, and monthly goals.
- Liaising with team members, management, and clients to ensure projects are completed to standards.
- Monitor and evaluate staff progress, assist with training and recruitment, set goals, and ensure client satisfaction.

Supervisor

E-Sports Center - GG Gaming Center (Amman, Jordan)

July 2018 – Dec 2020

- Review sales and costs, and reconcile any discrepancies in accounting, as well as ensuring proper cash management.
- Responsible for ensuring ongoing maintenance of the gaming center hardware equipment, software, licenses, and networking.
- Monitoring inventory to ensure adequate stock is maintained.
- Preparing weekly staff schedules to ensure adequate coverage.

Finance & Administrative Assistant

UNICEF (Amman, Jordan)

Dec 2017 – May 2018

- Summarizing information reflecting current obligations, future program and budgetary implications.
- Processing and examining the information and data in accordance with instructions received, making necessary abstracts and computations.
- Participating in and documenting meetings, workshops and other events linked to the Child Protection Annual Work plan.
- Documenting all meetings and ensuring action items are followed up on in coordination with stakeholders.

- Ensuring business documents, statements, and invoices are backed up routinely.
- Introduce personnel to camps and explain their roles in refugee camps.
- Conduct surveys from both organization and refugee sides to maximize and utilize the proper tools.
- Help plan for and facilitate workshops/working sessions with camp staff and stakeholders.
- Preparing participants folder material if needed, and when the workshop is led by UNICEF.
- Conducting a pre- and post-assessment of the child protection activities within Jordan.
- Support analyzing assessment and research results.

EDUCATION

Software Engineering Technology – Advanced Diploma

Centennial College

Toronto, Ontario

Years Attended: 2023 - 2026

Accounting and Finance - Bachelor's Degree

Al-Zaytoonah University of Jordan

Amman, Jordan

Years Attended: 2016 - 2019

Banking & Financial Sciences - Diploma

Luminus Technical University College (LTUC)

Amman, Jordan

Years Attended: 2012 - 2015

TECHNICAL SKILLS

Project Coordination & Delivery Skills

- Coordinated end-to-end delivery of technology-enabled projects across multiple stakeholders (Operations, IT, Finance, Customer Service)
- Supported project lifecycle phases: planning, testing, deployment, and operational readiness
- Managed project documentation including SOPs, test cases, reports, and status updates
- Experience tracking KPIs, timelines, risks, and deliverables using structured reporting
- Facilitated communication between internal teams and external vendors
- Supported multiple concurrent projects with competing priorities in fast-paced environments

System & Hardware Proficiency

- Skilled in hardware installation, maintenance, testing, and troubleshooting for laptops, desktops, and peripherals.
- Extensive experience with system imaging, BIOS configuration, Windows Autopilot, and Whiteglove deployments.
- Proficient in hardware quality grading and assessment across brands including Lenovo, Apple, and Samsung.

Operating Systems

- Windows (7, 10, 11), Linux.

Software & Productivity Tools

- Microsoft 365 Suite (Outlook, Word, Excel, PowerPoint, OneNote, OneDrive).
- Microsoft Excel (advanced reporting, tracking dashboards).
- Microsoft Teams / SharePoint for collaboration and documentation.
- Google Workspace (Docs, Sheets, Forms, Slides).

Web & Application Development Basics

- Working knowledge of HTML, CSS, JavaScript, and C#.
- Familiarity with Oracle 12c and basic database concepts.

Analytical & Troubleshooting Abilities

- Strong problem-solving skills with attention to detail in testing, diagnostics, and system analysis.
- Effective in managing technical escalations and optimizing workflow processes.
